

2010 National SOAR Outcomes

Overall Outcomes

- **Initial application decisions.** Since 2006, there have been 8,978 decisions on initial applications reported by 37 states; nearly 4,600 decisions in 2010 alone. The allowance or approval rate on these applications was 73% in an average of 91 days (from date of application submission to date of decision).
- **Economic stimulus.** In 2010 alone, SSI/SSDI brought at least \$53,041,104 into the state and local economies of the 37 states reporting outcomes.
- **Serving individuals who are chronically homeless** (16 states reporting). Persons served through SOAR had been homeless for an average of 2 years.
- **Increased access to housing** (10 states reporting): 81% of applicants were housed by the time benefits were approved; the length of time to housing after benefits were approved averaged 39 days

Implementation of Critical Components

- **Better communication with SSA and DDS** (21 states representing 3,368 applications)
92% of applications were submitted using the SSA-1696 Appointment of Representative Form as recommended by SOAR.
- **Fewer consultative exams** (18 states representing 3,254 applications)
Only 33% of applications required a consultative examination.

Collaborations

- **Hospitals** (11 states)
 - Agreements with medical records departments for expedited records at no-cost
 - Easy access to needed assessments
 - Dedicated benefits specialist positions within the hospital
 - Grant funding to support local non-profit SOAR programs
- **Departments of Corrections** (8 states)
 - Jail in-reach programs in Georgia, Nebraska, New Jersey and Wisconsin
 - Jail diversion in Florida and Georgia
 - Training of state departments of corrections in Florida, Georgia, Michigan, N. Carolina and Oklahoma
